

Group Programme - Spring is here!

Saturday 13th April – Elementals my dear Watson - Working with Nature Spirits. Adrian Incedon-Webber.

There must be fact behind our Folklore, otherwise it would not have stood the test of time. The Leprechauns of Ireland, the Troll of Scandinavia and Iceland, the Fairies on the Isle of Man, so many countries have their tales of the little folk and all are slightly different. They are the unseen (by most) and tireless workers of the world and they are linked to the four elements: earth, wind, fire and water.

By identifying and working with them their energies can be harnessed for the good of us and the planet.

During his talk Adrian will identify various groups of elementals, how we can recognise their presence and how to connect with them to benefit us, our homes and gardens. He will also explain how they can become trapped in our homes, the sort of problems that they can cause us and our pets, and importantly how to rescue them.

Adrian started Dowsing Spirits some eleven years ago, he is a full time dowser/healer (geomancer), Life Guide, author of 'Heal Your Home' (described as the bible of Geopathic Stress), new book 'Spirit & Earth' (a handbook for modern holistic living) and tutor of various dowsing and healing courses and workshops through the country.

He is a former Vice President to the British Society of Dowsters and past chair of their Earth Energies and Healing Groups.

Further details on his books, DVD and House Healing work are available on his informative website www.dowsingspirits.co.uk

Saturday 11th May - New Venue at Whitminster.

Healing - Energy, Spirit and You - What you need to know but were too afraid to ask!!! Paul Syrett.

Whether you seek more fulfilment from your daily life, or you are battling emotional, physical or spiritual problems which are holding you back, this talk will offer you something to think about.

Meetings at Whitminster Village Hall on the second Saturday of the month.
9:45 for 10:30 am start unless otherwise stated. £3 members, £5 guests.

This practical and hands on talk explores the way in which your energetic body is affected by the universe around you, how your spiritual, emotional and mental health can affect your physical wellbeing and how you, in your own unique way can heal yourself and others.

With examples and case studies galore Paul will draw on his own experiences as a healer to share how the relationship between your conscious and unconscious mind can influence your health. We will explore how your energetic body interfaces with your environment, the effect of nature, time and place and how you can tap into the life force in and around you to make subtle but profound changes in your life.

Paul is an experienced intuitive healer working in the capacity of a facilitator, connecting his clients with the wisdom of Spirit and the wider universe enabling them to identify and heal what is holding them back.

This practical and hands on talk will allow you to understand your origins, your life purpose and to explore how you can empower yourself to live your best life.

Saturday 8th June – Dowsing the Linear Landscape. Nigel Twinn

Long straight lines, currents and forces do much to shape the environment around us - particularly the parts that few of us can see or sense directly.

In this context, the way dowsing has developed in recent decades has tended to promote Leys (whatever they are?!) to a status which they may, or may not, deserve. We'll have a closer look at them, but also at a raft of other linear features that we can all detect quite easily - perhaps with a little bit of gentle prompting.

A session to excite novices - and to challenge the more experienced. Only soft or psychic objects may be thrown at the speaker during this talk!

News

We will be moving our monthly venue to Whitminster Village Hall from the May meeting onwards. Unfortunately no dogs are allowed in the hall.

The complete address is:

The Whitminster Village Hall, School Lane, Whitminster, GL2 7. Gloucester.

Don't forget the times – 9:45am onwards if you want to practice dowsing or have conversations to start.

We have yet to find a meeting place for a bite to eat after the meeting, a new topic to discuss after forthcoming meetings. There are 4 choices available nearby.

A Helping Hand Still Required

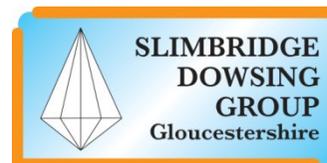

We have Special Interest Groups for Archaeological, Earth Energies, Health and Water dowsing. Barry Goldring continues to run the Archaeological Group, but we need leaders for the others. Please contact a committee member if you're interested, details as below.

Sad News

It is with sadness that that we bring you the news that Trish Mills partner, Andy Burns has just passed away. Many will remember Andy ably supporting Trish through her time as chair of the dowsing group and stepping in to help where required, like the front desk collecting fees when Barbara wasn't available. We would like to pass on our condolences to Trish at this time.

April - June 2019

Chairman's Report.

Wow – Lisa, our first guest speaker of the year and we run out of chairs, have more questions that we can accommodate and several spin off opportunities for more conversation and discussions that we can throw a dowsing rod at!!!

I knew it would be an interesting discussion but didn't appreciate how it could expand like it did. And that's one of the key things at this time of change around us.

Having those conversations together and seeing where they can lead.

With that in mind I and Jacki went to Bristol Dowsers on the 15th Feb because they were having their own conversation. It was a really interesting evening literally all talking and sharing our experiences with consciousness and it certainly is something I think we should do one evening in the near future.

The conversation opened another door to go to Somerset Dowsers on the following Sunday as they were having a workshop on Dowsing with various speakers spanning a number of subjects from Protection through to Mindfulness. Again this spurred further ideas that this is an area we could also explore in the months ahead if you are interested?

But it shows you how the conversation can lead, the synchronicities it creates, the contacts that we can make which brings us back to the conversation that Lisa held in her talk. It's an interesting circle isn't it.

So we have the years programme ahead, let's all try and bring someone new to the group and spread the information about our talks and let's see what conversations it then starts – and how many **extra** chairs we need to get – or is it a new venue with no need of a lift!

Paul Syrett
